EMBLEM

The University emblem consisting of two concentric circles, with the inner circle divided into two halves, one half showing the rising sun the other depicting the waters and a hundred petalled lotus emanating there from symbolises the biunity of knowledge and action, whole and part and time eternity. The Rigvedic hymn in the space between the upper circumferences of the two circles is a prayer to all powers auspicious, and an invocation of all intentions noble, all actions good and all wisdom serene.

The circle, the sun, the waters and the lotus in the emblem are all archetypes of wholeness. The mandala is a familiar motive of Indian art and iconography. The vedic supernal sun and the surface of the mythic lotus are circular in shape (mandalakara).

The supernal sun is verily the Person (Purusha) the Divine Being, the all-whole, divided into four part, one representing the three worlds of earth. sky and space (bhutani) and the remaining three, that is the major part representing Heaven and Immortality (amritam divi). It is this all-whole (akhanda mandalakaram) that the part (ams'a), that is man, perennially craves to unite with, through right knowledge and right action (Karatub).

The vedic hymn then expresses nothing more nor less than the universal human yearning for right knowledge, right intentions and right action (bhadrah kratavo) to come to him from all cosmic and supra cosmic corners. And it is this ideal of right intention that they seek to inculcate among their alumni.

The lotus is again the seat and seed-bed, in Indian mythology, of the goddess of knowledge (saraswati). The waters are the ultimate source from which all manifestations proceed and are appropriately depicted in myth and art as the residue(shesha), the irreducible unknown and unshown to which everything known and shown can be reduced. The residue (shesha) is analogically the non-residual (ashesha), the endless whole(ananta).

The traditional art motifs reproduced in the emblem only intend to express and reinforce the symbolism of the vedic hymn which our founding fathers had rightly selected as our motto.

MESSAGE

Since advent of DDU Gorakhpur University, Gorakhpur as the first university under the state legislature of Uttar Pradesh post-Independence has vision to provide equality education and act as a rostrum for scientific research, and a mission to develop human potential to its greatest degree. The university has already established itself as one of the top universities in basic sciences and humanities, but that is just the tip of the iceberg compared to the huge initiatives and progress the university is making in recent years. The university has grown as a banyan tree into a multi-disciplinary university offering varied, innovative, and professional courses in emerging areas. The Institute of Pharmacy, DDUGU is one of these sincere efforts to establish the vantage position of the university as the top multi-disciplinary university of India.

The Institute of Pharmacy is situated in the heart of 190.96 acres pristine-land DDUGU university campus with advanced infrastructure-facilities. It is going to be operational from its very first academic session, 2024-25, with D. Pharm & B. Pharm. The Institute is committed to enrich its faculty strength and quality in all areas of Pharmacy via fetching and recruiting scholars from all over the world. To enhance the quality of pharmaceutical education and its expansion towards industry relevance, we have introduced the newly designed curriculum which is based on the principle of more hands-on experience with strong fundamentals offering, more choices to the students and imbibing social and national commitments in them.

Being rated as the highest A⁺⁺ category institution by the National Assessment and Accreditation Council (NAAC), the university has made its place in various prestigious ranking lists at the global level. The university has also recently been selected for the PM Usha Yojana for conducting quality research.

We are moving ahead as an excellent educational institution that, in line with the objectives of the National Education Policy 2020, by enabling our students to explore their talents in cultural, social and sports fields also along with their studies, research and innovation.

I invite you to join us on this journey to achieve this goal.

ABOUT THE INSTITUTE

The Institute of Pharmacy, in the Faculty of Engineering and Technology, Deen Dayal Upadhyaya Gorakhpur University, Gorakhpur, was established in 2024 and currently offers a Diploma and Bachelor program in pharmacy. It aims to impart quality education in the noble pharmacy field and professionally trained the students. All available programs are approved by the Pharmacy Council of India, New Delhi.

The Institute is dedicated to excellence in Pharmaceutical education and specializes in various advanced research domains for our students. The department provides training and information about patient counselling, drug information services, medication reunion, health screening services, health awareness programs, community outreach programs, and medical camps.

The faculty members engaged in the Institute for shaping the future by innovative teaching methods and the development of skills to stimulate critical thinking and the appropriate use of pharmaceuticals and also play a significant role in implanting the ongoing Pharmacy education program, they are also fully devoted to high-class research in areas of Drug discovery and development of formulation (Nano- based drug delivery systems) from natural and synthetic sources & Design and synthesis of broad- spectrum novel therapeutic agents and analysis of synthetic molecules.

ADMISSION BROCHURE

VISION

To establish ourselves as a leading Institute in Pharmaceutical Sciences, offering high-quality education, training, and research which improves patient care and fosters innovation in drug development, ultimately meeting the healthcare needs of the global community.

MISSION

Our aim to revolutionize pharmacy practice, advance scientific knowledge, improve the health and well-being of individuals and globally through innovative, collaborative, and distinctive academic programs, research endeavors, and community

GOALS

The Institute of Pharmacy directs upon to achieve the preset goals mentioned below through an effective and holistic approach with the necessary outcomes.

- To impart the required fundamental knowledge of Pharmaceutical Science wherein the learners effectively proficient, to pioneer in the pharmacy profession.
- To equip with core scientific concepts enabling to resolve the modern scientific challenges with methodological skills.
- To develop competence in identifying the problem in the scientific task and enable them to explore and line up potential strategies to design, implement and evaluate a practicable solution.

- **Pharmaceutical/Medicinal Chemistry**
- **Pharmacognosy**
- **Pharmacology**
- **Pharmaceutics**
- **Intellectual Property Rights**
- **Pharmacokinetics, Pharmacodynamics & Toxicology**
- **Clinical Pharmacy**

World-Class Research: Our faculty are actively engaged in innovative research across a broad spectrum of pharmaceutical sciences. From unravelling the intricate mechanisms of disease to designing novel drug delivery systems and exploring personalized medicine approaches, our research endeavours aim to address critical healthcare challenges.

State-of-the-Art Facilities: Students and researchers benefit from access to well-equipped laboratories and advanced instrumentation, fostering a stimulating environment for hands-on learning and ground breaking discoveries

Interdisciplinary Collaboration: We foster strong collaborations with other departments within the university, as well as with industry partners and healthcare institutions, creating a rich ecosystem for knowledge exchange and translational research.

Dedicated Faculty: Our esteemed faculty members are experts in their respective fields, committed to providing high-quality education, mentorship, and guidance to our students. They are passionate about nurturing the intellectual curiosity and professional development of future pharmaceutical leaders.

We invite you to explore the exciting world of pharmaceutical sciences with us. Whether you are a prospective student eager to embark on a rewarding academic journey or a potential collaborator seeking innovative research partnerships, we welcome your interest and encourage you to connect with us. Together, we can contribute to a healthier future for all.
